EXECUTIVE SUMMARY

GeoScope Analytics is a leading geospatial intelligence company delivering AI-powered site selection, enterprise GIS solutions, and actionable location intelligence.

We combine deep expertise in GIS, data science, and spatial analytics with the power of the Esri ArcGIS ecosystem to help organizations make faster, smarter, and more confident location-based decisions.

Our solutions empower clients across industries to optimize site selection, assess risk, plan infrastructure, and modernize enterprise GIS environments with accuracy and efficiency.

From strategy and architecture to deployment, integration, training, and ongoing support—we deliver end-to-end geospatial solutions that drive measurable value.

Our mission is to deliver sustainable, data-driven, and future-ready geospatial solutions that help organizations build smarter, more resilient communities and infrastructure.

WHO WE ARE

GeoScope Analytics is a full-stack geospatial intelligence company specializing in AI-powered site selection, enterprise GIS solutions, and advanced spatial intelligence services.

We combine deep expertise across the Esri ArcGIS ecosystem with proprietary Geo-AI technologies to help organizations make faster, smarter, and more confident location-based decisions.

Our flagship platforms, SitelQ™ and OnePin™, transform traditional site selection workflows into powerful, data-driven insights into markets, risk, infrastructure, and growth potential.

As a proud member of the Esri Partner Network, we deliver enterprise-grade ArcGIS-powered solutions across energy, utilities, data infrastructure, industrial development, and urban planning sectors.

OUR EXPERTISE

GIS & SPATIAL INTELLIGENCE

Advanced spatial analytics and location intelligence for better decision-making.

AI & DATA SCIENCE

AI-powered models and data-driven insights for complex challenges.

ENTERPRISE SOLUTIONS

Scalable ArcGIS implementations tailored to your business.

INTEGRATION & AUTOMATION

Streamlined workflows and system integration for maximum efficiency.

STRATEGY & CONSULTING

Expert guidance from strategy and planning to deployment and ongoing support.

CORE SOLUTIONS

We deliver advanced geospatial intelligence solutions that empower organizations to make smarter decisions, reduce risk, and drive sustainable growth.

Our integrated suite of solutions leverages the power of Esri technology, AI, and data analytics to address complex challenges across industries.

SitelQ™ Platform

AI-powered site selection and geospatial decision platform that transforms vast data into actionable location intelligence.

GIS Professional Services

Strategic consulting, GIS support, custom application development, and enterprise migration services tailored to your needs.

Enterprise GIS Solutions

Scalable ArcGIS implementations that enable data integration, real-time visualization, and system integration.

Esri Partner Network

Access to Esri's industry-leading technology and ecosystem expertise to accelerate your digital transformation.

Spatial Data & Analytics

High-quality spatial data, advanced analytics, and custom modeling to uncover insights and drive results.

OUR VALUES

INNOVATIVE FIRST

We embrace AI and emerging technologies to solve real-world challenges.

INTEGRITY

We operate with transparency, accountability, and ethical practices in everything we do.

COLLABORATION

We believe the best outcomes come from working together and shared success.

EXCELLENCE

We are committed to delivering exceptional quality in every engagement we do.

SUSTAINABLE FUTURES

We leverage geospatial intelligence to support resilient communities and infrastructure.

MARKETS WE SERVE

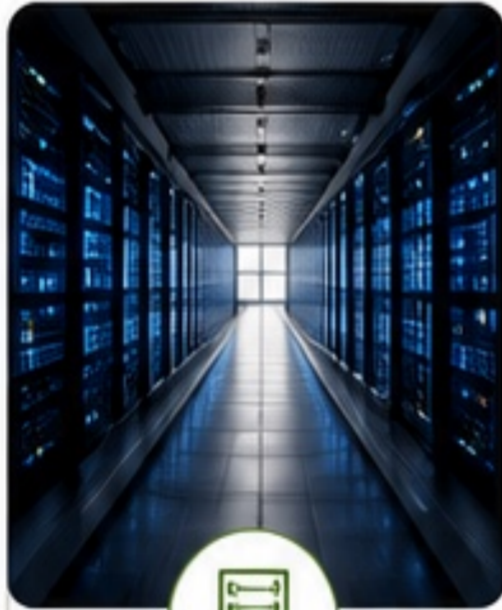

GeoScope delivers specialized geospatial intelligence solutions for industries where location decisions drive long-term value.

From site selection and risk assessment to infrastructure planning and asset management, we help organizations unlock the power of location intelligence to plan, invest, and grow with confidence.

SOLAR & RENEWABLE ENERGY

- Site screening & suitability
- Resource & terrain analysis
- Environmental constraints
- Grid proximity assessment
- Feasibility scoring

DATA CENTERS & DIGITAL INFRASTRUCTURE

- Power & fiber analysis
- Land & zoning evaluation
- Cooling & water access
- Risk assessment
- Portfolio comparison

URBAN PLANNING & GOVERNMENT

- Zoning & land use analysis
- Transportation modeling
- Growth & demographic analytics
- Infrastructure planning
- GIS modernization

INDUSTRIAL & MANUFACTURING

- Industrial site selection
- Logistics & corridor analysis
- Utility access assessment
- Environmental risk mapping
- Construction feasibility

UTILITIES & ENERGY INFRASTRUCTURE

- Transmission & distribution planning
- Substation & corridor siting
- Outage & reliability analysis
- Right-of-way analysis
- Asset management

sitelQ™ PLATFORM

AI-Powered Site Selection & Geospatial Decision Intelligence

sitelQ is GeoScope's flagship, cloud-native platform that combines AI, spatial analytics, and proprietary data to simplify complex site selection and location strategy.

It empowers organizations to evaluate sites, compare scenarios, and make confident, data-driven decisions—faster and more effectively.

POWERFUL CAPABILITIES. END-TO-END WORKFLOW.

SITE SCREENING

Filter and shortlist locations based on customizable criteria.

SUITABILITY ANALYSIS

AI-driven scoring to identify the best-fit sites across multiple factors.

RISK ASSESSMENT

Evaluate environmental, social, regulatory, and operational risks.

PROXIMITY & ACCESSIBILITY

Measure distance to customers, suppliers, infrastructure, and key markets.

COST & INVESTMENT MODELING

Estimate total cost of ownership and investment viability.

REPORTING & EXPORT

Generate professional reports and data for decisions and presentations.

WHY sitelQ?

SAVE TIME

Automate analysis and shortlist sites in minutes, not weeks.

REDUCE RISK

Make data-backed decisions with greater confidence.

OPTIMIZE INVESTMENT

Identify high-potential locations and maximize ROI.

DRIVE SUSTAINABILITY

Incorporate environmental and social factors into every decision.

EMPOWER TEAMS

Enable collaboration and transparency across your organization.

AI-POWERED GEOSPATIAL INTELLIGENCE

Smarter Insights. Better Decisions. Sustainable Impact.

GeoScope combines artificial intelligence, spatial analytics, and domain expertise to turn complex location data into actionable intelligence. Our AI-powered models and automation accelerate decision-making, uncover hidden patterns, and predict future outcomes with greater accuracy.

HOW AI ENHANCES GEOSPATIAL DECISIONS

MACHINE LEARNING MODELS

Predict site suitability, demand, risks, and trends using advanced machine learning algorithms.

PATTERN RECOGNITION

Detect spatial patterns and relationships invisible to traditional analysis.

PREDICTIVE ANALYTICS

Anticipate future scenarios and model outcomes to support proactive planning.

AUTOMATION & EFFICIENCY

Automate data processing, analysis, and reporting to save time and reduce manual effort.

HIGHER ACCURACY

Leverage AI to reduce uncertainty and improve confidence in location-based decisions.

SUSTAINABLE OUTCOMES

Drive smarter decisions that balance economic growth with environmental and social responsibility.

AI IN ACTION: REAL-WORLD USE CASES

SITE SUITABILITY PREDICTION

AI models evaluate multiple spatial and non-spatial factors to identify the best-fit locations.

RISK & IMPACT ASSESSMENT

Predict environmental, social, and operational risks with greater accuracy.

DEMAND & GROWTH FORECASTING

Forecast demand and growth patterns to guide strategic investments.

INFRASTRUCTURE OPTIMIZATION

Optimize corridor routing, asset placement, and network planning.

SUSTAINABILITY & ESG INTELLIGENCE

Assess environmental impact, monitor change, and support ESG reporting.

OnePin
Verified Digital Identity

ONEPIN™ GLOBAL BUILDING IDENTITY

A Universal Digital Identity for Every Building. Everywhere.

OnePin™ is GeoScope's proprietary global building identity system that assigns a unique, verified digital identity to every building on the planet. It creates a trusted foundation for data integration, interoperability, and smarter location-based decision-making.

GLOBAL COVERAGE
Consistent building identities worldwide

UNIQUE & VERIFIED
One unique digital ID per building

TRUSTED & SECURE
Built on rigorous verification and QA

INTEROPERABLE
Seamless integration across platforms

KEY FEATURES

UNIQUE GLOBAL IDENTIFIER

Each building is assigned a persistent, location-based digital ID that never changes.

HIGH-PRECISION 3D GEOMETRY

Accurate 3D building footprints and attributes for precise spatial understanding.

VERIFIED & QUALITY ASSURED

Multi-layer verification ensures data accuracy, completeness, and reliability.

DYNAMIC & UP-TO-DATE

Continuously updated to reflect real-world changes and new development.

INTEROPERABLE & STANDARDS-BASED

Built for seamless integration with GIS, BIM, IoT, analytics, and enterprise systems.

POWERING ENDLESS USE CASES

URBAN PLANNING & SMART CITIES

Enable data-driven planning, zoning, and sustainable urban development.

REAL ESTATE & PROPERTY INTELLIGENCE

Enhance property insights, valuation, and portfolio analytics.

RISK & INSURANCE

Improve risk assessment, exposure modeling, and claims management.

LOGISTICS & DELIVERY

Improve last-mile delivery, routing, and geospatial operations.

UTILITIES & INFRASTRUCTURE

Optimize asset management, outage response, and infrastructure planning.

ENVIRONMENT & SUSTAINABILITY

Support environmental monitoring, ESG reporting, and climate resilience.

THE ONEPIN™ ADVANTAGE

MAKE SMARTER DECISIONS

Access trusted building data to drive better outcomes faster.

IMPROVE ACCURACY

Eliminate ambiguity with verified, high-quality building identities.

INTEGRATE WITH CONFIDENCE

Connect systems and data seamlessly with a common building language.

REDUCE COSTS

Save time and resources with reliable, ready-to-use building data.

SCALE GLOBALLY

Deploy solutions anywhere with global coverage and consistency.

DRIVE SUSTAINABLE IMPACT

Enable innovations that support communities and the planet.

ENTERPRISE GIS SOLUTIONS

**Powerful. Integrated. Intelligent.
Built for the Enterprise.**

GeoScope delivers comprehensive Enterprise GIS solutions that integrate people, processes, and technology to unlock the full potential of location intelligence. Our solutions help organizations streamline operations, reduce risk, enhance decision-making, and drive measurable business outcomes.

INDUSTRIES WE SERVE

GOVERNMENT & PUBLIC SECTOR
Improve service delivery, asset management, and citizen engagement.

UTILITIES & ENERGY
Optimize infrastructure, monitor assets, and enhance outage management.

TRANSPORTATION
Plan, design, and maintain smarter, safer, and more efficient networks.

REAL ESTATE & PROPERTY
Gain location intelligence for site selection, valuation, and portfolio management.

ENVIRONMENT & NATURAL RESOURCES
Monitor ecosystems, manage resources, and support sustainability initiatives.

INSURANCE
Assess risk, streamline claims, and improve underwriting with spatial insights.

TELECOM & MEDIA
Optimize network planning, asset deployment, and customer coverage.

COMPREHENSIVE SOLUTIONS. END-TO-END VALUE.

SELECT EXPERIENCE

Real Impact. Measurable Results.

GeoScope partners with organizations worldwide to solve complex geospatial challenges and deliver solutions that drive efficiency, reduce risk, and support sustainable growth.

GLOBAL EXPERIENCE

Projects delivered across 5 continents and 50+ countries.

DIVERSE INDUSTRIES

Serving government, utilities, transportation, real estate, and more.

CLIENT FOCUSED

Tailored solutions that meet unique business needs.

PROVEN RESULTS

Delivering measurable outcomes that drive long-term value.

TRUSTED PARTNER

Built on integrity, quality, and a commitment to client success.

FEATURED PROJECTS

NATIONAL MAPPING INITIATIVE

Government

Developed a national-scale geospatial database and interactive mapping platform to support planning, resource management, and evidence-based decision-making.

KEY OUTCOMES

- ✓ Integrated 30+ data layers
- ✓ Improved data accessibility and transparency
- ✓ Enabled data-driven policy and planning

UTILITY NETWORK MODERNIZATION

Utilities

Built a centralized GIS platform for asset management, outage management, and operational planning across electric distribution networks.

KEY OUTCOMES

- ✓ Improved outage response by 25%
- ✓ Optimized maintenance and inspections
- ✓ Enhanced reliability and customer satisfaction

TRANSPORTATION ASSET MANAGEMENT

Transportation

Implemented a GIS-based asset management system to track infrastructure conditions and prioritize investments across the transportation network.

KEY OUTCOMES

- ✓ Comprehensive asset inventory
- ✓ Data-driven investment prioritization
- ✓ Enhanced safety and performance tracking

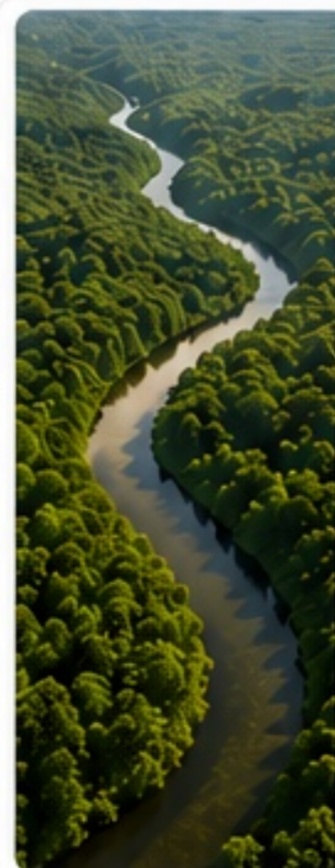

REAL ESTATE INTELLIGENCE PLATFORM

Real Estate

Created a location intelligence platform to support site selection, market analysis, and portfolio optimization for real estate investments.

KEY OUTCOMES

- ✓ Reduced site evaluation time by 40%
- ✓ Improved investment decision accuracy
- ✓ Increased portfolio performance

ENVIRONMENTAL MONITORING SYSTEM

Environment

Developed a geospatial monitoring system to track environmental changes, assess risks, and support sustainability and compliance initiatives.

KEY OUTCOMES

- ✓ Real-time environmental monitoring
- ✓ Improved compliance and reporting
- ✓ Data-driven sustainability strategies

MUNICIPAL GIS TRANSFORMATION

Local Government

Modernized GIS infrastructure and workflows, enabling departments to collaborate and deliver better services to communities.

KEY OUTCOMES

- ✓ Streamlined workflows
- ✓ Improved data sharing and collaboration
- ✓ Better service delivery and citizen engagement

TECHNOLOGY STACK

Modern. Scalable. Intelligent.

GeoScope leverages a robust and innovative technology stack to deliver secure, scalable, and future-ready geospatial solutions powered by Esri technology, AI, and cloud.

ESRI TECHNOLOGY

Leveraging the world's leading geospatial platform to build, manage, and share location intelligence.

ArcGIS Platform

The leading geospatial platform for mapping, analytics, and data management.

ArcGIS Online

Cloud-based mapping and collaboration for organizations of any size.

ArcGIS Enterprise

Self-hosted GIS infrastructure for secure and private deployments.

ArcGIS Pro

Professional GIS desktop application for advanced analysis and editing.

ArcGIS API for Python

Automate workflows, analyze data, and build GIS solutions with Python.

ArcGIS API for JavaScript

Build interactive, web-based maps and applications.

ArcGIS Insights

Transform data into actionable insights with location intelligence.

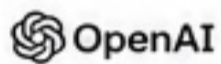

ArcGIS Notebooks

Data science and spatial analysis in a collaborative environment.

AI & ADVANCED TECHNOLOGIES

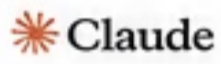

Harnessing the power of artificial intelligence and machine learning to extract deeper insights.

LEADING AI MODELS

GPT-4o

Advanced natural language understanding, generation, and reasoning for geospatial insights and automation.

Claude 3

Powerful analysis, summarization, and decision support for complex spatial data.

GPT Models

Enterprise-grade AI models hosted on Microsoft Azure for secure, scalable AI applications.

Gemini 1.5

Multimodal AI for advanced analytics and geospatial data interpretation.

Llama 3

Open-source AI models for flexible and cost-effective deployments.

SPATIAL ANALYTICS & MACHINE LEARNING

- Predictive modeling
- Pattern recognition
- Anomaly detection
- Classification & clustering

NATURAL LANGUAGE PROCESSING

- AI-powered search
- Smart summarization
- Report generation
- Conversational AI

COMPUTER VISION & IMAGERY AI

- Object detection
- Feature extraction
- Image classification
- Change detection

AI-DRIVEN AUTOMATION

- Workflow automation
- Intelligent data extraction
- Automated map production
- Decision recommendation

GENERATIVE AI APPLICATIONS

- Content generation
- Scenario simulation
- Synthetic data generation
- What-if analysis

CLOUD & INFRASTRUCTURE

Built on secure, scalable, and reliable cloud infrastructure.

Microsoft Azure

- Azure App Services
- Azure SQL Database
- Azure Blob Storage

WHY ORGANIZATIONS CHOOSE GEOSCOPE

Trusted Partner. Proven Results. Measurable Impact.

GeoScope empowers organizations to unlock the full potential of location intelligence. Our commitment to innovation, quality, and customer success sets us apart as a trusted advisor for geospatial solutions that drive meaningful outcomes.

THE GEOSCOPE DIFFERENCE

BUSINESS FOCUSED SOLUTIONS

We align geospatial technology with your business goals to deliver solutions that drive real-world impact.

TRUSTED & RELIABLE PARTNER

Organizations trust us for our integrity, transparency, and commitment to long-term partnerships.

INNOVATION DRIVEN

We leverage cutting-edge technology, AI, and data science to deliver forward-thinking solutions.

EXPERT TEAM OF PROFESSIONALS

Our experienced geospatial experts bring deep domain knowledge and technical excellence to every project.

END-TO-END CAPABILITIES

From data acquisition to insights and implementation, we provide comprehensive geospatial services.

PROVEN RESULTS & MEASURABLE ROI

Our solutions deliver measurable outcomes that improve efficiency, reduce costs, and enhance decision-making.

SECURE & COMPLIANT

We prioritize data security, privacy, and compliance with industry standards and regulations.

GLOBAL PERSPECTIVE, LOCAL INSIGHT

With global experience and local understanding, we deliver solutions tailored to your unique challenges.

OUR ENGAGEMENT APPROACH

A Collaborative Process. Proven Results.

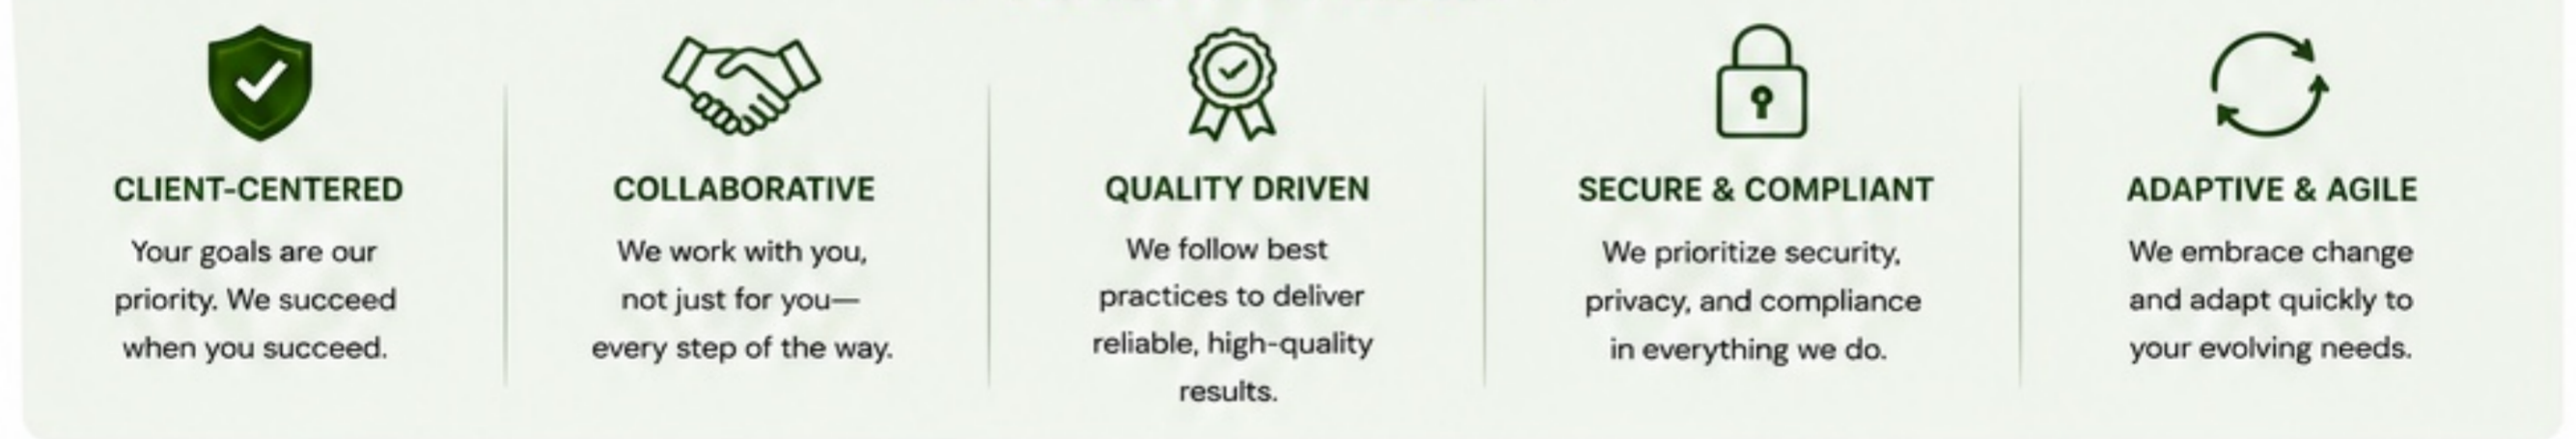

At GeoScope, we follow a proven, iterative approach that ensures we understand your needs, deliver the right solutions, and create measurable impact—every step of the way.

OUR 7-STEP ENGAGEMENT PROCESS

OUR GUIDING PRINCIPLES

EXPECTED OUTCOMES

More than a vendor, we're your strategic partner.

From concept to continuous improvement, we're with you on the journey to a smarter, more sustainable future.

ESRI STARTUP NETWORK

Advancing Innovation with the Power of Location

Innovating Today. Shaping Tomorrow.

GeoScope is proud to be a member of the Esri Startup Network—empowering us to leverage Esri technology, resources, and global connections to build innovative geospatial solutions that drive meaningful impact.

PROUD TO BE AN ESRI STARTUP NETWORK MEMBER

The Esri Startup Network provides early-stage companies like GeoScope with access to world-class technology, expertise, and a global ecosystem to build, grow, and make a difference.

ESRI STARTUP NETWORK

A global community that supports entrepreneurs using location intelligence to solve real-world problems.

- ✓ Access to Esri technology and software
- ✓ Technical support and learning resources
- ✓ Mentorship and go-to-market support
- ✓ Global visibility and community connection
- ✓ Opportunities to collaborate and grow

HOW THE ESRI STARTUP NETWORK EMPOWERS GEOSCOPE

TECHNOLOGY ACCESS	LEARN & GROW	NETWORK & COLLABORATE	GO-TO-MARKET SUPPORT	SCALE & IMPACT
Leverage Esri's industry-leading ArcGIS platform and cloud capabilities to build impactful solutions.	Gain access to training, technical resources, and best practices to accelerate innovation and delivery.	Connect with a global community of startups, partners, and Esri experts to share ideas and collaborate.	Benefit from business development support and opportunities to showcase our solutions.	Scale our impact with location intelligence solutions that create value for customers and communities.

POWERED BY THE ARCGIS PLATFORM

Building innovative solutions with the most comprehensive location intelligence platform.

ArcGIS Online	ArcGIS Enterprise	ArcGIS Pro	ArcGIS API for Python	ArcGIS Insights	ArcGIS Survey123	ArcGIS Dashboards	ArcGIS Hub
Create, share, and collaborate with maps and apps in the cloud.	Secure, scalable GIS infrastructure deployed on your terms.	Professional GIS desktop for advanced analysis and mapping.	Automate workflows and extend ArcGIS capabilities using Python.	Transform data into actionable insights and visual stories.	Smart data collection and field surveys made easy.	Monitor and visualize key metrics in real time.	Engage communities and stakeholders with location data.

BENEFITS TO OUR CLIENTS

- INNOVATIVE SOLUTIONS**
We combine Esri technology with innovation to deliver solutions that solve complex challenges.
- FASTER TIME TO VALUE**
Access to best-in-class tools and expertise helps us deliver results faster and more efficiently.
- RELIABLE & SCALABLE**
Built on the trusted ArcGIS platform—secure, scalable, and ready for the future.
- STRONGER TOGETHER**
Our membership strengthens our ability to support customers and create a positive impact in the world.

SOLUTIONS FOR A BETTER WORLD

Local Government	Utilities	Transportation	Natural Resources
Smart cities, asset management, and public safety.	Network management, outage response, and field operations.	Asset tracking, maintenance planning, and mobility.	Conservation, land management, and environmental monitoring.
Public Safety	Real Estate	Education	Healthcare
Situational awareness, emergency response, and risk assessment.	Site selection, market analysis, and portfolio management.	Campus planning, facilities management, and engagement.	Site analysis, service area mapping, and resource planning.

Together with Esri, we are building a smarter, more sustainable future through the power of location.

STARTUP SPIRIT. GLOBAL IMPACT.

GeoScope is excited to be part of the Esri Startup Network and looks forward to innovating, collaborating, and creating solutions that make a lasting difference.
